

# Tax Status Declaration Form

## Common Reporting Standard - Individual

### Purpose

Financial Institutions in Ireland are required under legislation to seek answers to questions for purposes of identifying accounts, the details of which are reportable to Irish Revenue for onward transmission to tax authorities in other jurisdictions. The legislation includes the requirements under the Organisation for Economic Cooperation and Development (OECD) Common Reporting Standard (CRS).

This form is designed for you to inform Irish Life of your tax residency. We are asking for your country/countries of tax residency and tax reference numbers (where applicable) and will record this on our records. In certain circumstances (including if we do not receive valid self-certification from you) we may be obliged to share information on your plan with the Irish Revenue Commissioners for onward reporting to tax authorities in other countries/jurisdictions.

### Information

#### Tax Residency

Tax residency rules can be complex and if you have any questions on how to complete this form we recommend that you speak to your tax or legal adviser, as Irish Life is not authorised to give such advice.

A Tax Identification Number is a unique combination of letters or numbers, however described, assigned by a jurisdiction to an individual and used to identify the individual for purposes of administering the tax laws of such jurisdiction.
