FUND DESCRIPTION

The Emerging Markets Low Volatility Active Equity fund will seek to achieve its investment objective through an active investment approach, which aims to deliver returns similar to that of emerging market equities but with superior downside protection, and lower absolute volatility, over the long-term.

The Fund will seek to achieve superior downside protection by selecting equity securities, based on a diverse range of factors, which are expected to deliver more stable returns and reduced capital loss (downside) compared to capitalisation weighted equity benchmarks over a full market cycle.

Warning: If you invest in this product you may lose some or all of the money you invest.
