Investors have two Versions to choose from, the Growth Plus and Growth Versions. These Versions differ in terms of capital security and participation in the fund performance and have been designed to cater for varying risk and return requirements of individual investors:

BCP GLOBAL ASSET BOND 5 – GROWTH PLUS VERSION

Your entire investment is allocated to a 5 year Global Asset Bond. At the end of the 5 year Term, the Growth Plus Version will pay 92% of the Remaining Capital (original investment amount less any withdrawals made on the Early Exit Date) invested plus 200% of the positive Performance achieved by the Fund over the 5 year Term. For example, if the Performance of the Fund is 40% over the term of the Bond, the return to investors will be 92% of the Remaining Capital invested plus 80% (40% x 200%) giving a Gross Return of 72%. As the 72% return in this case is above the 40% Performance Fee hurdle rate, a 2% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 70% paid to investors. This is equivalent to 14% per annum (CAR 11.2%). If the Performance of the Fund is less than 4% you will lose some of your Remaining Capital invested up to a maximum of 8% as 92% capital security applies.

BCP GLOBAL ASSET BOND 5 – GROWTH VERSION

Your entire investment is allocated to a 5 year Global Asset Bond. At the end of the 5 year Term, the Growth Version will pay 97% of the Remaining Capital invested plus 130% of the positive Performance achieved by the Fund over the 5 year Term. For example, if the Performance of the Fund is 40% over the term of the Bond, the return to investors will be 97% of the Remaining Capital invested plus 52% (40% x 130%) giving a Gross Return of 49%. As the 49% return in this case is above the 40% Performance Fee hurdle rate, a 2% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 47% paid to investors. This is equivalent to 9.4% per annum (CAR 8.0%). If the Performance of the Fund is less than 2.3% you will lose some of your Remaining Capital investment up to a maximum of 3% as 97% capital security applies.

WARNING: The figures above are provided only to illustrate how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the version of the Bond you invest in and the actual Performance of the Fund which cannot be predicted in advance.

PERFORMANCE FEES

If at the end of the 5 year term the Gross Return of the Bond is between 18% and 39.9%, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP. If at the end of the Term the Gross Return of the Bond is 40% or greater, then a Performance Fee of 2% will be paid to BCP in respect of that version. If you encash part/all of your investment at the 3 year Early Exit Date and the gross return of the Bond is between 11% and 23.9%, then a Performance Fee of 0.6% will be deducted from the gross return and paid to BCP (1.2% if the gross return of the Bond is 24% or greater). The Performance Fee is paid in addition to the initial fee paid to BCP as described in the Key Features on page 6.

EARLY EXIT OPTION

BCP has negotiated an early exit facility whereby you may encash up to 100% of your investment on the 3rd anniversary of the Bond at its realisable value, subject to a minimum of €10,000 per Version. Capital security will not apply to this encashment. The realisable value of the capital withdrawal may be more or less than the capital secure amount, depending on whether the growth earned by the Bond is greater or less than the early exit break costs.

WARNING: The value of your investment may go down as well as up, you may get back less than you invest.

WARNING: If you encash at the 3 year Early Exit Date, capital security will not apply to the portion of your investment being encashed. The encashment amount may be more or less than the capital secure amount.

WARNING: If you invest in this product, at maturity you could lose 3% (Growth Version) or 8% (Growth Plus Version) of the money you invest.

WARNING: If you invest in this product, you will not have access to your money for 3 years and/or 5 years.

BCP GLOBAL ASSET BOND 5 KEY FEATURES

The product producer of the BCP Global Asset Bond 5 is BCP Asset Management Limited, 71 Upper Leeson Street, Dublin 4.

HOW DOES THE BOND WORK?

YOUR entire investment is allocated to a 5 year Global Asset Bond 5 – Growth Plus and/or Growth Version. At the end of the term, the percentage performance (gain or loss) of the Fund is calculated. This performance if positive, will be multiplied by 200% (Growth Plus Version) or 130% (Growth Version) and added to the capital secure amount to determine the Gross Return of the Bond Version. The Growth Plus and Growth Versions offer 92% or 97% capital security at maturity respectively.

SUITABILITY | The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the Performance of the Fund and will only be determined at the end of the term. No withdrawals may be made before the Early Exit Date on 17th December 2018, or at maturity of the Bond on 17th December 2020. Your money is not invested in the Fund, therefore, you do not benefit from any dividends distributed by the Fund but you will benefit from dividends and income earned within the Fund during the term of the Bond. In order to protect the performance of the Fund from volatility towards the end of the term, the Final Price will reflect the average Fund level on a monthly basis over the final 18 months of the term. The effect of averaging is to protect returns where performance is falling but conversely it may restrict growth where performance is rising. A Performance Fee of 1% will be deducted if the Gross Return of a Bond Version is between 18% and 39.9% at maturity. If the Gross Return of a Bond Version is 40% or higher then a Performance Fee of 2% will be paid to BCP at maturity. If you avail of the early exit option after 3 years and the gross return of a Bond Version is between 11% and 23.9%, a Performance Fee of 0.6% will be deducted from the gross return and paid to BCP (1.2% if the gross return of the Bond is 24% or higher).

CAPITAL SECURITY | Capital security at maturity is provided by Investec Bank plc. (Irish Branch). In the event Investec fails to meet its liabilities, you could lose some or all of your money. Your investment is held in the name of your pension platform provider. As your pension platform provider is the beneficial owner of the assets, it is important to note that this investment is not covered by the UK Financial Services Compensation Scheme (FSCS).
