# BCP GLOBAL EQUITY ABSOLUTE RETURN BOND 3

## ABOUT OLD MUTUAL GLOBAL INVESTORS (OMGI)

OMGI is a UK private asset management company with origins dating back to 1984. It is a wholly owned subsidiary of Old Mutual plc, a FTSE 100 listed company. Old Mutual plc is a leading international banking and investment group that has been serving insurance and investment customers for over 165 years. OMGI currently employs over 240 people and has assets under management of over €30bn. OMGI manages a range of funds for investors that cover all major asset classes including equities, multi-asset and alternatives.

## SUMMARY OF THE OLD MUTUAL GEAR FUND

- Market neutral portfolio of global equities
- Target return of cash plus 6% net of fees
- Target volatility of 5-6%
- Past performance of CAR 6.3% since launch in 2009
- Aiming to achieve absolute returns that are independent to global equity and bond markets
- Fund has a flexible and dynamic investment approach
- Fund targets a stable risk/return profile

## THE INVESTMENT STRATEGY

The objective of the Fund is to achieve capital appreciation while closely controlling risk. The fund managers believe that markets are not fully efficient and that share prices diverge from their fundamental value due to investors' behavioural biases. The Old Mutual team builds a diversified portfolio of companies that is expected to outperform in the current macroeconomic environment while applying stringent risk-management techniques and maintaining strict limits on sector and stock positions.

Each stock in the investment universe is evaluated based on 5 key characteristics to determine whether the company is suitable for inclusion in the fund and how much weight it should be given if selected. As a result the investment strategy is a blend of value, growth, momentum and quality and this blend will vary depending on the prevailing market environment.

- 1. Dynamic Valuation:** The Fund blends a sophisticated valuation model with measures of stock quality and seeks attractive valuations considering both historic and forecast information.
- 2. Sustainable Growth:** The Fund seeks strong but stable growth characteristics and protection from downturns in economic growth cycles.
- 3. Analyst Sentiment:** Markets react to analyst predictions. The Fund captures behavioural aspects of the reaction to analyst forecasts, and highlights short-term opportunities.
- 4. Company Management:** Evidence of strong management teams making good investment decisions and efficient use of capital.
- 5. Market Dynamics:** The Fund looks for stable trends that are likely to persist and avoiding bubbles by looking for trends with fundamental support.

# BCP GLOBAL EQUITY ABSOLUTE RETURN BOND 3

## WHY AN ABSOLUTE RETURN GLOBAL EQUITY STRATEGY?

Global equity markets rallied strongly from the bottom of the financial crisis in March 2009 up to the middle of 2015. Since then markets have endured higher levels of volatility as concerns have arisen over the strength of the global economic recovery. This volatility has led to large withdrawals from the equity markets over short periods of time and given the uncertainty surrounding future equity market growth we believe it is an appropriate time within a diversified portfolio to make an allocation to an absolute return global equity strategy that targets moderate and consistent positive returns at low levels of volatility.

[crm.bcp.ie](http://crm.bcp.ie)

INVESTORS HAVE TWO BOND VERSIONS TO CHOOSE FROM WITHIN THIS STRUCTURE. THESE HAVE BEEN DESIGNED TO CATER FOR VARYING RISK AND RETURN REQUIREMENTS OF INDIVIDUAL INVESTORS:

## BCP GLOBAL EQUITY ABSOLUTE RETURN BOND 3 **GROWTH PLUS VERSION**

At the end of the 5 year Term, the Growth Plus Version will pay 91% of the Remaining Capital invested plus 200% of the Performance achieved by the Old Mutual Global Equity Absolute Return (GEAR) Fund over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Old Mutual GEAR Fund is 40% over the term of the Bond, the return to investors will be 91% of the Remaining Capital invested plus 80% (40% x 200%) giving a Gross Return of 71%. As the 71% return in this case is above the 40% Performance Fee hurdle rate, a 2% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 69% paid to investors. This is equivalent to 13.8% per annum (CAR 11.1%). Even if the Performance of the Fund is negative over the term of the Bond, 91% of the Remaining Capital invested will be returned.

## BCP GLOBAL EQUITY ABSOLUTE RETURN BOND 3 **GROWTH VERSION**

At the end of the 5 year Term, the Growth Version will pay 96% of the Remaining Capital invested plus 100% of the Performance achieved by the Old Mutual GEAR Fund over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Old Mutual GEAR Fund is 40% over the term of the Bond, the return to investors will be 96% of the Remaining Capital invested plus 40% (40% x 100%) giving a Gross Return of 36%. As the 36% return in this case is above the 18% Performance Fee hurdle rate, a 1% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 35% paid to investors. This is equivalent to 7.0% per annum (CAR 6.2%). Even if the Performance of the Fund is negative over the term of the Bond, 96% of the Remaining Capital invested will be returned.

## PERFORMANCE FEES

If at the end of the 5 year term the Gross Return of the Bond is between 18% and 39.99%, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP. If at the end of the Term the Gross Return of the Bond is 40% or greater, then a Performance Fee of 2% will be paid to BCP in respect of that version. If you encash part/all of your investment at the 3 year Early Exit Date and the gross return of the Bond is between 11% and 23.99%, then a Performance Fee of 0.6% will be deducted from the gross return and paid to BCP (1.2% if the gross return of the Bond is 24% or greater). The Performance Fee is paid in addition to the initial fee paid to BCP, as described in the Key Features on page 5.

## EARLY EXIT OPTION

BCP has negotiated an early exit facility whereby you may encash your entire investment on the 3rd anniversary of the Bond at its realisable value, subject to a minimum of €10,000 per Version. Capital security will not apply to this encashment. The realisable value of the capital withdrawal may be more or less than the capital secure amount, depending on whether the growth earned by the Bond is greater or less than the early exit break costs.

**Warning: These figures are estimates only. They are not a reliable guide to the future performance of this investment.**  
**Warning: The figures above are provided only to illustrate how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the version of the Bond you invest in and the actual Performance of the Fund which cannot be predicted in advance.**  
**Warning: The value of your investment may go down as well as up, you may get back less than you invest.**  
**Warning: If you encash at the 3 year Early Exit Date, capital security will not apply to the portion of your investment being encashed. The encashment amount may be more or less than the capital secure amount.**  
**Warning: If you invest in this product, at maturity you could lose 4% (Growth Version) or 9% (Growth Plus Version) of the money you invest.**  
**Warning: If you invest in this product, you will not have any access to your money for 3 years and/or 5 years.**  
**Warning: The return on your investment in this product may be affected by changes in currency exchange rates.**

# BCP GLOBAL EQUITY ABSOLUTE RETURN BOND 3

## KEY FEATURES

### HOW DOES THE BCP GLOBAL EQUITY ABSOLUTE RETURN BOND 3 WORK?

The product producer of the BCP Global Equity Absolute Return Bond 3 is BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4.

Your entire investment is allocated to a 5 year Global Equity Absolute Return Bond. At the end of the 5 year Term, the percentage performance (gain or loss) of the Fund is calculated. This performance will then be multiplied by 200% (Growth Plus Version) or 100% (Growth Version), to determine the interest to be added to the Remaining Capital secure amount in each bond version. The Growth Plus and Growth Versions offer 91% and 96% capital security respectively.

**SUITABILITY** | The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the Performance of the Fund and will only be determined at the end of the term. No withdrawals may be made before the Early Exit Date on 23rd December 2019, or at maturity of the Bond on 21st December 2021. Your money is not invested in the Fund, therefore, you do not benefit from any dividends paid by the Fund, but you will benefit from the dividends and income earned within the Fund during the term of the Bond. In order to protect the performance of the Fund from volatility towards the end of the term, the Final Price will reflect the average price of the Fund on a monthly basis over the final 18 months of the 5 year Term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market. A Performance Fee of 1% will be deducted if the Gross Return of a Bond Version is between 18% and 39.99% at maturity. If the Gross Return of a Bond Version is 40% or higher then a Performance Fee of 2% will be paid to BCP at maturity. If you avail of the early exit option after 3 years and the gross return of a Bond Version is between 11% and 23.99%, a Performance Fee of 0.6% will be deducted from the gross return and paid to BCP (1.2% if the gross return of the Bond is 24% or higher). The return on your investment in this product may be affected by changes in currency exchange rates.

**CAPITAL SECURITY** | Capital security is provided by Investec Bank plc (Irish Branch). In the event Investec fails to meet its liabilities, you could lose some or all of your money. Your investment is held in the name of your pension platform provider. As your pension platform provider is the beneficial owner of the assets, it is important to note that this investment is not covered by the UK Financial Services Compensation Scheme (FSCS).

### WHERE DOES MY INVESTMENT IN THE BCP GLOBAL EQUITY ABSOLUTE RETURN BOND 3?

The paragraph below displays how the investment is structured for a hypothetical €10,000 investor.

#### GROWTH VERSION

The Growth Version provides 96% capital security by placing 92.61% or €9,261 of your investment amount on deposit. This amount will grow to 96% or €9,600 by the end of the 5 year Term. The Bond offers a return of 100% of the positive Performance of the underlying Fund, less the 4% capital at risk, less any Performance Fee. 4.50% or €450 of your investment amount will be used to purchase this return.

If the Performance of the Fund is negative at the end of the 5 year Term, you will receive 96% of your Remaining Capital invested. This payment represents a 4% (CAR -0.8%) loss on your investment over the period.

BCP will receive a fee of 2.89% or €289 for manufacturing, distributing and administering the Bond, equivalent to 0.58% per annum. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more then a Performance Fee of 2% will be paid to BCP at maturity. #### GROWTH PLUS VERSION

The Growth Plus Version provides 91% capital security by placing 87.92% or €8,792 of your investment amount on deposit. This amount will grow to 91% or €9,100 by the end of the 5 year Term. The Bond offers a return of 200% of the positive Performance of the underlying Fund, less the 9% capital at risk, less any Performance Fee. 9.00% or €900 of your investment amount will be used to purchase this return.

If the Performance of the Fund is negative at the end of the 5 year Term, you will receive 90% of your Remaining Capital invested. This payment represents a 9% (CAR -1.9%) loss on your investment over the period.

BCP will receive a fee of 3.08% or €308 for manufacturing, distributing and administering the Bond, equivalent to 0.62% per annum. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more then a Performance Fee of 2% will be paid to BCP at maturity. If you avail of the early exit option after 3 years and the gross return of the Bond is between 11% and 23.99%, a Performance Fee of 0.6% will be deducted from the gross return and paid to BCP (1.2% if the gross return of the Bond is 24% or greater).

#### DO I HAVE ACCESS TO MY INVESTMENT?

You may encash your entire investment on the 3rd anniversary of the commencement date of the Bond (23rd December 2019) at its realisable value, subject to a minimum of €10,000. As capital security is provided only at the end of

the 5 year Term, the realisable value of the capital withdrawal may be more or less than the capital secure amount, depending on whether the growth earned by the Bond is greater or less than the early exit break costs. BCP will contact you in advance of the 3rd anniversary to provide an indicative exit price. You will have the option to withdraw your entire investment (subject to a minimum of €10,000 per Version) at its realisable value or to switch your early exit proceeds to a new investment. You have the right to cancel your application for the Bond within two weeks of the date you sign it but no later than the Closing Date.

#### WHAT HAPPENS IF I DIE BEFORE THE BOND MATURES?

Where an investment is made on behalf of a self-directed or self administered pension plan, in the event of death of a member prior to the expiry of the Term, the Bond may be redeemed at its realisable value as determined by BCP based on a calculation by the Bank which may be more or less than the Remaining Capital secure amount. The proceeds from such redemption will be paid to the trustees of the plan, or the investing Life Company as appropriate. Early redemption fees may apply in the event of an early exit outside of the 3 year early exit.

#### WHAT ABOUT TAX?

This Bond is available to pension platform investors only. Pension platform investors are currently exempt from Deposit Interest Retention Tax. Investors should satisfy themselves in relation to the Revenue reporting requirements and the implications of nondisclosure where required.
