

Get comfortable investing for your future

Saving and investing for your future is something everyone knows they should do. The reality is that life can get in the way. Below is the financial advice adults would give to their younger selves:

Start saving earlier for the future

64%

Don't use your credit card as a way to borrow

50%

Got a pay rise? Well done! Invest it!

47%

Keep a little nest egg no-one else knows about

42%

Save the children's allowance for their education or to give them a nest egg

33%

Don't leave all your money sitting in the bank

27%

GET COMFORTABLE INVESTING IN 3 EASY STEPS

Step 1

Get your investor profile

Step 2

Match to the fund that suits

Step 3

See the expected range of returns
