

Wealth Alliance Portfolio 4

Information is correct at 31st March 2017

Fund Description

This fund's investments are spread over a broad range of investment types and markets. The fixed interest investments include government and corporate bonds. Equity investments are predominantly in developed market equities, but may also invest in other markets. The fund will typically have investments in property and alternative assets.

This fund is suitable for investors seeking good long term investment returns, and who are comfortable with investment risk and accept that capital values may fluctuate, especially over shorter time periods.

In addition, the Dynamic Share to Cash (DSC) model will operate on a portion of the fund.

Warning: If you invest in this product you may lose some or all of the money you invest.

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.

This fund may borrow to invest. While borrowing increases the level of risk within the fund it also provides an opportunity to increase the investment return.
