INVESTORS HAVE TWO BOND VERSIONS TO CHOOSE FROM WITHIN THIS STRUCTURE. THESE HAVE BEEN DESIGNED TO CATER FOR VARYING RISK AND RETURN REQUIREMENTS OF INDIVIDUAL INVESTORS:

BCP GLOBAL OPPORTUNITIES BOND 2 GROWTH PLUS VERSION

At the end of the 5 year Term, the Growth Plus Version will pay 91% of the capital invested plus 210% of the Performance achieved by the Pictet Multi-Asset Global Opportunities (MAGO) Fund over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Fund is 30% over the term of the Bond, the return to investors will be 91% of the capital invested plus 63% (30% x 210%) giving a Gross Return of 54%. As the 54% return in this case is above the 40% Performance Fee hurdle rate, a 2% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 52% paid to investors. This is equivalent to 10.4% per annum (CAR 8.7%). Even if the Performance of the Fund is negative over the term of the Bond, 91% of the capital invested will be returned.

BCP GLOBAL OPPORTUNITIES BOND 2 GROWTH VERSION

At the end of the 5 year Term, the Growth Version will pay 96% of the capital invested plus 100% of the Performance achieved by the Pictet Multi-Asset Global Opportunities (MAGO) Fund over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Fund is 30% over the term of the Bond, the return to investors will be 96% of the capital invested plus 30% (30% x 100%) giving a Gross Return of 26%. As the 26% return in this case is above the 18% Performance Fee hurdle rate, a 1% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 25% paid to investors. This is equivalent to 5.0% per annum (CAR 4.6%). Even if the Performance of the Fund is negative over the term of the Bond, 96% of the capital invested will be returned.

PERFORMANCE FEES

If at the end of the 5 year Term the Gross Return of the Bond Version is between 18% and 39.99%, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP. If at the end of the 5 year Term the Gross Return of the Bond Version is 40% or greater, then a Performance Fee of 2% will be paid to BCP in respect of that version. The Performance Fee is paid in addition to the initial fee paid to BCP, as described in the Key Features on page 5.

Warning: The figures above are provided only to show how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the version of the Bond you invest in and the actual Performance of the Fund which cannot be predicted in advance. Warning: The value of your investment may go down as well as up, you may get back less than you invest. Warning: If you invest in this product, at maturity you could lose 4% (Growth Version) or 9% (Growth Plus Version) of the money you invest. KEY FEATURES

HOW DOES THE BCP GLOBAL OPPORTUNITIES BOND 2 WORK?

The product producer of the BCP Global Opportunities Bond 2 is BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4.

Your entire investment is allocated to a 5 year Global Opportunities Bond 2. At the end of the 5 year Term, the percentage performance (gain or loss) of the Fund is calculated. This performance will then be multiplied by 210% (Growth Plus Version) or 100% (Growth Version), to determine the interest to be added to the capital secure amount in each bond version. The Growth Plus and Growth Versions offer 91% and 96% capital security at maturity respectively.

SUITABILITY | The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the Performance of the Fund and will only be determined at the end of the term. No withdrawals may be made before the maturity of the Bond on 21st December 2021. Your money is not invested in the Fund, therefore, you do not benefit from any dividends paid by the Fund, but you will benefit from the dividends and income earned within the Fund during the term of the Bond. In order to protect the performance of the Fund from volatility towards the end of the term, the Final Price will reflect the average price of the Fund on a monthly basis over the final 18 months of the 5 year Term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market. A Performance Fee of 1% will be deducted if the Gross Return of a Bond Version is between 18% and 39.99% at maturity. If the Gross Return of a Bond Version is 40% or higher then a Performance Fee of 2% will be paid to BCP at maturity. The return on your investment in this product may be affected by changes in currency exchange rates.

CAPITAL SECURITY | Capital security at maturity is provided by Bank of Ireland. In the event Bank of Ireland fails to meet its liabilities, you could lose some or all of your money. Note your investment is not covered by the Deposit Guarantee Scheme.
