FUND DESCRIPTION

This fund predominantly invests in equities - both developed and emerging markets. There are additional investments in property and alternative assets which aim to provide diversification and control risk. Investors in this fund are aiming for higher long term investment returns and capital growth, and understand that to achieve this there will be significant ups and downs in asset values, particularly in the short term. The fund uses an active asset allocation strategy to move money between shares and cash.

Warning: If you invest in this product you may lose some or all of the money you invest.

ASSET ALLOCATION

ALTERNATIVES LISTED BY MANAGER

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return. External asset managers may change over time. Underlying funds or investments may be subject to incentive fees. This fund may borrow to invest which increases both the risk and opportunity for return.

This fund is provided by Irish Life Assurance plc and is managed by Irish Life Investment Managers Limited. It is developed together with FDC to meet the needs of a specific client risk profile.

Warning: This fund may be affected by changes in currency exchange rates.
