FUND DESCRIPTION

The Lifelong Income Benefit Approved Retirement Fund (ARF) Advanced fund invests in both international stock markets and bonds to a varying degree. The equity fund invests in international stock markets through the tracking of equity indices. The bond fund invests in fixed income securities. The target equity content of the fund is 60% and the remainder of the fund is invested in fixed income securities and cash type instruments. Note: The level of equity and bond investment in these funds may vary from time to time due to market movements in the underlying assets. The fund manager will endeavour to rebalance to the above target levels when appropriate.

Warning: If you invest in this product you may lose some or all of the money you invest.
