FUND DESCRIPTION

This fund may invest in a broad range of assets - government and corporate bonds, and equities covering global developed markets and other markets and sectors. There will also normally be allocations to higher risk debt securities, property and alternative investments with the aim of diversifying risk and enhancing returns. The fund also includes several risk management strategies.

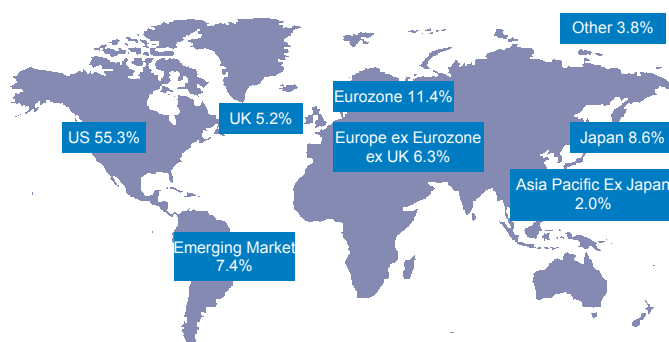

Investors in this fund are looking for good long term investment returns through a varied portfolio, and are willing to accept a higher level of risk and volatility in asset values, particularly in the short term.

Warning: If you invest in this product you may lose some or all of the money you invest.

ALTERNATIVES LISTED BY MANAGER

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return. External asset managers may change over time. Underlying funds or investments may be subject to incentive fees. Part of this fund may borrow to invest in property. Non euro currency exposures may be fully or partly hedged back to euro to reduce foreign currency risk. High Yield Bonds are sub-advised by an external manager.

This fund is provided by Irish Life Assurance plc and is managed by Irish Life Investment Managers Limited. It is developed together with HC to meet the needs of a specific client risk profile.

Warning: This fund may be affected by changes in currency exchange rates.
