WHY THE ETHNA-AKTIV FUND

BCP GLOBAL ASSET BOND 2

Investors have two Versions to choose from, the Protected and Growth Versions. These Versions differ in terms of capital security and participation in the fund performance and have been designed to cater for varying risk and return requirements of individual investors:

BCP GLOBAL ASSET BOND 2 – PROTECTED VERSION

Your entire investment is allocated to a 6 year Global Asset Bond. At the end of the 6 year Term, the Protected Version will pay 100% of the Remaining Capital (original investment amount less any withdrawals made on the Early Exit Date) invested plus a further 2% fixed return, along with 80% of the positive Performance achieved by the Fund over the 6 year Term. For example, if the Performance of the Fund is 50% over the term of the Bond, the return to investors will be 102% of the Remaining Capital invested plus 40% (50% x 80%) giving a Gross Return of 42%. As the 42% return in this case is above the Performance Fee hurdle rate of 22%, a 1% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 41% paid to investors. This is equivalent to 6.8% per annum (CAR 5.9%). Even if the Performance of the Fund is negative over the term of the Bond, 102% of the Remaining Capital invested will be returned.

BCP GLOBAL ASSET BOND 2 – GROWTH VERSION

Your entire investment is allocated to a 6 year Global Asset Bond. At the end of the 6 year Term, the Growth Version will pay 97% of the Remaining Capital invested plus 130% of the positive Performance achieved by the Fund over the 6 year Term. For example, if the Performance of the Fund is 50% over the term of the Bond, the return to investors will be 97% of the Remaining Capital invested plus 65% (50% x 130%) giving a Gross Return of 62%. As the 62% return in this case is above the Performance Fee hurdle rate of 22%, a 1% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 61% paid to investors. This is equivalent to 10.2% per annum (CAR 8.3%). If the Performance of the Fund is less than 2.3% you will lose some of your original investment up to a maximum of 3% as 97 % capital security applies to your original investment.

WARNING: The figures above are provided only to illustrate how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the version of the Bond you invest in and the actual Performance of the Fund which cannot be predicted in advance.

PERFORMANCE FEES

If at the end of the 6 year term the Gross Return of the Bond is 22% or greater, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP. If you encash part/all of your investment at the 3 year Early Exit Date and the gross return of the Bond is 11% or greater, then a Performance Fee of 0.5% will be deducted from the Gross Return and paid to BCP. The Performance Fee is paid in addition to the initial fee paid to BCP, as described in the Key Features on page 5.

EARLY EXIT OPTION

BCP has negotiated an early exit facility whereby you may encash up to 100% of your investment on the 3rd anniversary of the Bond at its realisable value, subject to a minimum of €10,000 per Version. Capital security and the minimum return of 2% will not apply to this encashment. The realisable value of the capital withdrawal may be more or less than the capital secure amount, depending on whether the growth earned by the Bond is greater or less than the early exit break costs.

WARNING: The value of your investment may go down as well as up. If you encash at the 3 year Early Exit Date or invest in the Growth Version, you may get back less than you invest.

WARNING: If you encash at the 3 year Early Exit Date, capital security will not apply to the portion of your investment being encashed. The enashment amount may be more or less than the Remaining Capital secure amount.

WARNING: If you invest in the Growth Version you could lose 3% of the money you invest at maturity.

WARNING: If you invest in this product, you will not have access to your money for 3 years and/or 6 years.

BCP GLOBAL ASSET BOND 2

KEY FEATURES

HOW DOES THE BCP GLOBAL ASSET BOND 2 WORK?

The product producer of the BCP Global Asset Bond 2 is BCP Asset Management Limited, 71 Upper Leeson Street, Dublin 4.

Your investment is allocated to the 6 year BCP Global Asset Bond 2 in either the Protected or Growth Version. At the end of the Term, the percentage performance (gain or loss) of the Fund is calculated. If positive, this performance will then be multiplied by 80% for the Protected Version or 130% for the Growth Version to determine any interest to be added to the capital amount secured in each version of the bond. Bonus interest of 2% is also paid at maturity for the Protected Version. The Protected and Growth Versions offer 100% and 97% capital security respectively at maturity. The return on the Bond will depend on the Performance of the Fund and will only be determined at the end of the Term. In order to protect the Performance of the Fund from volatility towards the end of the 6 year Term, the Final Price will reflect the average price of the Fund on a monthly basis over the final 18 months (19 Averaging Dates) of the 6 year Term. The effect of averaging is to protect returns where performance is declining but conversely it may restrict growth where performance is rising. A Performance Fee of 1% will be deducted from the Gross Return and paid to BCP if the Gross Return of either Bond Version is 22% or higher at maturity. If you avail of the early exit option after 3 years and the gross return of a Bond Version is 11% or greater, a Performance Fee of 0.5% will be deducted from the Gross Return and paid to BCP.

SUITABILITY The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the Performance of the Fund and will only be determined at the end of the term. No withdrawals may be made before the Early Exit Date on 3rd April 2018, or at maturity on 30th March 2021. Your money is not invested in the relevant Fund, therefore, you do not benefit from any dividends distributed by the Fund but you will benefit from dividends and income earned within the Fund during the Term of the Bonds. The Bonds do not suffer exposure to foreign currency hence there will be no currency risk.

CAPITAL SECURITY Capital security is provided by Investec Bank plc (Irish Branch). In the event Investec fails to meet its liabilities, you could lose some or all of your money. Your investment is held in the name of your pension platform provider. As your pension platform provider is the beneficial owner of the assets, it is important to note that this investment is not covered by the UK Financial Services Compensation Scheme (FSCS).

WHERE DOES MY INVESTMENT IN THE BCP GLOBAL ASSET BOND 2 GO?

The paragraphs below display how the investment is structured for a hypothetical €10,000 investor in each Version of the Bond.

PROTECTED VERSION

The Protected Version provides 100% capital security by placing 91.39% or €9,139 of your investment amount on deposit. This amount will grow to 100% or €10,000 by the end of the 6 year Term. The Protected Version offers a return of 2% of your investment amount plus 80% of any positive Performance of the underlying Fund, less any Performance Fee. 6.70% or €670 of your investment amount will be used to purchase this return. If the Performance of the Fund is negative at the end of the 6 year Term, you will receive 102% of your Remaining Capital invested. This payment represents a 2% gain (CAR 0.3%) on your investment over the period.

As described previously on page 4, a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is 22% or more at maturity. The Growth Version provides 97% capital security by placing 89.39% or €8,939 of your investment amount on deposit. This amount will grow to 97% or €9,700 by the end of the 6 year Term. The Growth Version offers a return of 130% of any positive Performance of the underlying Fund, less the 3% capital at risk, less any Performance Fee. 7.80% or €780 of your investment amount will be used to purchase this return. If the Performance of the Fund is negative at the end of the Term, you will receive 97% of your Remaining Capital invested. This payment represents a 3% loss (CAR -0.5%) on your investment over the period.

BCP will receive a fee of 2.81% or €281 for manufacturing, distributing and

administering the Bond, equivalent to 0.47% per annum. As described previously on page 4, a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is 22% or more at maturity. DO I HAVE ACCESS TO MY INVESTMENT?

You may encash your investment on the 3rd anniversary of the commencement date of the Bond (3rd April 2018) at its realisable value, subject to a minimum of €10,000. As capital security and the minimum return of 2% is provided only at the end of the 6 year Term, the realisable value of the capital withdrawal may be more or less than the capital secure amount, depending on whether the growth earned by the Bond is greater or less than the early exit break costs. BCP will contact you in advance of the 3rd anniversary to provide an indicative exit price. You will have the option to withdraw up to 100% of your investment at its realisable value or to switch your early exit proceeds to a new investment. You have the right to cancel your application for the Bond within two weeks of the date you sign it but no later than the Closing Date.

The proceeds from such redemption will be paid to the trustees of the plan, or the investing Life Company as appropriate.
